

QUALITY POLICY

The management of MOLDTECH, being aware of the latest requirements of the precast sector and considering the latest trends being adopted with regards to quality management, is committed to start a new phase where quality is the center point of our efforts. It is our irrenounceable objective to work in accordance to the international norm UNE-EN ISO9001:2015 and assure our services comply all of the relevant legal and regulatory requirements as well as any specifications of our clients.

The Management is committed to market only products which satisfy our clients, to establish processes which enable to comply with a “continuous improvement” program for the effectiveness of the Quality Management system, revising permanently the analysis of the organizational context and integrating this in its corporate strategy.

In line with aforementioned decision and intention, the Management is committed to allocate the corresponding material and human resources necessary for reaching this objective, with the conviction that the related costs imply a profitable investment. The Quality policy will be made public to all Moldtech personnel by internal communications assuring its full understanding.

Quality Management is an objective and responsibility of all Moldtech personnel and concerns all related activities.

Convinced that Quality will enable us to reach a continuous improvement system, we will establish and revise on a yearly basis the specific quantifiable objectives indicating the responsible persons and time periods which will help us to measure and evaluate the attained improvement.

This Quality Policy will be communicated and explained to all Moldtech employees who all will be responsible to put this policy in practice by carrying out the allocated tasks as defined by the requirements established in the Quality Management System.

Seville, the 31st of May 2021.
